Subject: NE Ethanol Issue

Hi DeAndre – per the bi-weekly I'll share some background and planned steps in the event you are contacted.

The letter from NDA and NDEE didn't identify the particular facility but, until we learn otherwise, are assuming it is the same facility we were discussing with them about a year ago. That company name was AltEn. **Ex. 5 DP**

Ex. 5 DP

Ex. 5 DP

Communications with OPP indicated that the limited sampling that had been done found levels of insecticides and fungicides that would pose risks. NDA rescinded it's approval for the use of the wet cake as a soil amendment rendering it as no longer having a useful purpose and subjecting it to solid waste requirements.
